

North West England

[Pathology Experience](#)

18/11/2011 08:30 - 12:00

Short description: `Pathology Experience` is a session organised for Medical Students for them to gain an insight of Histopathology routine work by following a `trip` of specimens from the theatres to a Histopathology Lab.

[Pathology Lab Videos](#)

21/01/2012 11:00

Short description: Two short videos created by Pathology Departments of the Royal Liverpool Hospital. These give a brief introduction to the activities which occur in order to provide pathology services.

[Neuropathology - Increasing Awareness](#)

24/01/2012 09:00 - 11:00

Short description: As part of National Pathology Year 2012, we at Buxton labs (Neuropathology and Neurobiochemistry) would like to invite medical students and Walton staff members to visit the department for a laboratory tour and learn about the journey of specimen from patient to diagnosis. You will also have a chance to look at light and electron microscopy and a few commonly used techniques in Neurobiochemistry like Xanthochromia and Paraneoplastic investigations.

[Take a Tour of the Pathology Labs](#)

25/01/2012 13:00 - 16:30

Short description: A series of events will take place in the form of tours around the Pathology laboratories of Huddersfield Royal Infirmary and Calderdale Royal Infirmary, throughout 2012.

[A Day in the Laboratory](#)

31/01/2012 10:00 - 14:00

Short description: A lab visit has been organised for sixth form students as part of their coursework and to inform them about careers in the laboratory.

[Healthy Hearts](#)

01/02/2012 13:30 - 17:00

Short description: We want to reinforce the importance of looking after your heart by following a healthy lifestyle to our lipid clinic patients. We will therefore be holding an information stand in the clinic to provide information and advice to patients.

[Discussing Post Mortems](#)

08/02/2012 13:00 - 14:00

Short description: A talk about post mortems in general. Includes topics such as types, when to inform the Coroner, how to formulate the cause of death, requested post mortems, how to talk to families and types of consent.

[Pathology Experience](#)

17/02/2012 10:00 - 12:00

Short description: Pathology Experience gives you the opportunity to explore a Pathology Lab and see the stages which specimens go through to enable a diagnosis to be made. You will explore the hidden world under the microscope and discover a complex puzzle of diseases. So come and join us for an unforgettable experience!

[Sudden Cardiac Death in Young People Talk](#)

01/03/2012 14:00 - 15:00

Short description: A talk for sixth form students on sudden cardiac death in young people followed by dissection of a sheep's heart to learn about heart anatomy.

[Antenatal and New Born Screening Timeline](#)

07/03/2012 10:00 - 14:00

Short description: This event will follow the timeline of pregnancy through three stages; Pre-conception, Antenatal and Newborn. Staff and Visitors to the hospital can follow the stands through these stages and speak with Laboratory staff about how pathology and testing both Mother and Baby is involved at each stage of the process.

[HANDS ON HEALTH CARE SCIENCE](#)

09/03/2012 09:00 - 15:30

Short description: We are conducting a pathology workshop for year 9 school students who are attending the "Hands on health care science" day. The workshop will provide them with hands on activity related to pathology which will give them insight into the role of pathology in health care.

[Microbiology Information Stand](#)

12/03/2012 09:00 - 17:30

Short description: A display of items of interest relating to Microbiology

[Healthcare Science Week](#)

14/03/2012 11:30 - 14:30

Short description: Scientists from all departments of Pathology will host a stand in the Outpatients Department at Royal Preston Hospital to promote Pathology and increase awareness of its role in medicine to the general public.

[Educational Meeting-NW Regional Council](#)

20/03/2012 13:00 - 17:30

Short description: This is an educational meeting organised by the RCPATH NW Regional Council for all pathologists including trainees throughout the Region.

[Pathology Weeks 2012](#)

 08/04/2012 00:01 - 23:59

Short description: A series of week long events themed to coincide with NPY themes in April, July and October.

 [Preston Health Mela](#)
21/04/2012 10:00 - 16:00

Short description: The Preston Health Mela brings together healthcare professionals from many disciplines. This includes displays from Pathology and free health checks.

 [Guild Health Mela 2012](#)
21/04/2012 10:00 - 16:00

Short description: A health exhibition will be taking place with over 100 exhibitors covering all aspects of healthcare, to encourage the local community to be responsible for their own health and for them to engage with local healthcare organisations.

 [I Love Pathology Open Day](#)
23/04/2012 09:30 - 17:00

Short description: Displays, presentations and talks by senior and junior medics, nursing staff and laboratory staff

 [The Future is Immunology](#)
25/04/2012 13:00 - 17:00

Short description: A series of lectures on vaccine developments aimed at healthcare professionals.

 [The Future is Immunology!](#)
25/04/2012 13:30 - 18:30

Short description: A series of presentations about the different aspects of immunology.

 [The Science Behind the Cure](#)
27/04/2012 13:00 - 14:00

Short description: A talk about the history of Pathology using some of the 50 objects selected by the College. May include a Quiz too!

 [An Introduction to Histopathology](#)
15/05/2012 09:00 - 16:30

Short description: Medical students have been invited to attend a day learning about bowel, breast and cervical screening and the role of histopathology through displays, presentations and talks by clinicians, nursing staff, pathologists, mortuary and laboratory staff.

 [National Pathology Year Grand Round](#)
15/06/2012 09:00 - 10:00

Short description: A Grand Round session will be hosted by the Royal Liverpool University Hospital to inform and educate medical staff in the region of the impact and contribution of Pathology to local patient care.

 [Porphyria Open Day](#)
23/06/2012 10:30 - 15:30

Short description: This is an open day for the patients' charity, the British Porphyria Association. Health professionals with an interest in porphyria are also welcome to attend.

 [Royal Liverpool Biochemistry Lab Tours](#)
01/07/2012 09:00 - 17:00

Short description: 4000 samples a day, what exactly happens between giving a blood sample and the results coming back?

 [Pathology Awareness Day](#)
12/07/2012 01:30 - 04:00

Short description: Pathology Awareness Day for A/S level students with interest in science and medicine

 [I Love Pathology Open Day](#)
19/10/2012 09:30 - 15:30

Short description: An open day for GCSE pupils consisting of displays, presentations and talks by senior and junior medics, scientists and nurses.
