

Scotland

[What is a Pathologist?](#)

17/02/2012 14:00 - 15:00

Short description: An interactive session with school pupils to provide information and advice on pathology as a career.

[Meet the Healthcare Scientists](#)

12/03/2012 09:15 - 16:30

Short description: Meet the scientists and let them show you how they influence diagnosis.

[Meet the Scientist](#)

12/03/2012 09:15 - 16:30

Short description: Scientists from different disciplines demonstrating what they do and how they influence diagnosis within the hospital setting.

[Chromosomes and You](#)

12/03/2012 13:00 - 15:00

Short description: Presentation entitled "Chromosomes and You" and a karyotyping workshop.

[All for One and One for All](#)

14/03/2012 09:30 - 16:30

Short description: Interactive demonstration of how the three different healthcare science streams affect diagnosis and patient care

[Robo Science](#)

15/03/2012 09:30 - 16:30

Short description: An interactive demonstration of futuristic uses of science in patient care.

[Diagnosis Science](#)

16/03/2012 09:15 - 13:30

Short description: An interactive event giving an overview of the hidden sciences within the field of healthcare science.

[Drugs in Sport - Cafe Med Special](#)

29/05/2012 19:00 - 20:00

Short description: Dr Arthur Strachan explores the highly topical issue of "Drugs in Sport."

[Doctors at Work](#)

07/06/2012 13:00 - 16:00

Short description: As part of a week of work placement activities for senior school pupils who are considering a career in medicine, the pupils spend an afternoon learning about the work done in a Department of Clinical Biochemistry.

[NHS: CSI Clinical Science Investigators](#)

21/07/2012 11:00 - 16:00

Short description: Come and explore what goes on behind the scenes in a hospital laboratory. 80% of clinical diagnoses require input from NHS scientists - find out what they do and have a go yourself!

[Doctors at Work](#)

26/07/2012 13:00 - 16:00

Short description: As part of a week of work placement activities for senior school pupils who are considering a career in medicine, pupils spend an afternoon exploring the work done in a Department of Clinical Biochemistry.

[Community Corner](#)

05/11/2012 09:00 - 21:00

Short description: "What is Pathology?" A display in the Community Corner in the main entrance to Aberdeen Royal Infirmary

[Meet the Scientist](#)

06/11/2012 10:00 - 14:00

Short description: School groups will have the opportunity to carry out hands-on experiments: find out how much sugar is in soft drinks, see how good you are at handwashing, and much more.

[Meet the Scientist](#)

10/11/2012 10:00 - 16:00

Short description: A day of hands-on interactive activities for all ages. Adults can have a free cholesterol test, and children can measure how much sugar is in soft drinks, see how well they wash their hands, and much more.

[Pathology in the Breast Screening Service](#)

Short description: Presentation as part of an Educational Meeting of the Scottish Breast Clinicians' Group
